PROFESSIONAL SUMMARY

Motivated and enthusiastic Front-End Web Developer currently pursuing a B.TECH in Computer Science and Engineering, with a strong foundation in HTML, CSS, JavaScript, and responsive web design. Experienced in developing user-friendly web applications through personal and academic projects, including an e-commerce website, portfolio website, and to-do list application. Familiar with Git, GitHub, React fundamentals, and Visual Studio Code. A quick learner with strong problem-solving and teamwork skills, seeking an entry-level Web Developer or Front-End Developer role to apply technical knowledge, gain practical industry experience, and contribute to building responsive, high-quality web applications.

EDUCATION

RKDF University -- B.TECH - Bachelor Of Technology In Computer Science & Engineering | *2024 – 2027*

Arun Muchhala Polytechnic, Thane -- Diploma In Computer Engineering | *Sep 2021 – Sep 2024* | *77.29%*

S.B.M Padwal Vidyalaya, Thane – SSC | *2010 – 2020* |

INTERNSHIP EXPERIENCE

NASTECH (New Age Solutions Technologies) – Python Programming Intern

- Completed a 6-week industrial training program in Python, building problem-solving and coding skills through structured exercises.
- Built mini-projects applying core Python concepts including data handling, control flow, and debugging.
- Practiced real-world programming scenarios that strengthened code efficiency and reinforced core principles.

ACADEMIC PROJECTS

1. **Easy Event App**
   Academic Group Project | Android (Java), Firebase
   A mobile application built to streamline college event planning and management.
   - Developed a mobile application to simplify college event planning and management.
   - Built features for event creation, registration, schedules, and event updates using Firebase for real-time data storage.
   - Designed a user-friendly interface to help students browse and participate in college events efficiently.
   - Collaborated in a team to develop, test, and improve the application while following software development best practices.

2. **To-Do List Web App**
   Personal Project | HTML, CSS, and JavaScript
   - Built a responsive To-Do List application using HTML, CSS, and JavaScript.
   - Features include adding, deleting, and marking tasks as completed with a clean and user-friendly interface.
   - Improved DOM manipulation and local storage skills.
     GitHub Repository | Live Demo

3. **E-Commerce Product Website**
   Personal Project | HTML, CSS, and JavaScript
   - Developed a modern e-commerce product website using HTML, CSS, and JavaScript.
   - Includes product showcase, pricing section, responsive design, and interactive user interface.
   - Enhanced front-end development and responsive design skills.
     GitHub Repository | Live Demo

4. **Portfolio Website**
   Personal Project | HTML, CSS, and JavaScript
   - Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase skills, projects, and contact information.
   - Created a responsive and modern UI with smooth navigation and professional layout.
     GitHub Repository | Live Demo

5. **Blush and Bloom - Beauty E-commerce Website**
   Personal Project | HTML, CSS, JavaScript, Responsive web design and Front-End development
   - Designed and developed a beauty e-commerce website featuring makeup products with an attractive, modern, and responsive user interface.
   - Implemented interactive features including product selection, wishlist functionality, add-to-cart functionality, and a checkout flow to enhance the shopping experience.
   - Created dedicated sections for product categories, delivery information, and website footer to provide a complete shopping interface.
     GitHub Repository | Live Demo

CERTIFICATIONS

- Python (Programming Language) Udemy
- Python Essentials 1, Cisco Networking Academy
- Python Essentials 2, Cisco Networking Academy
- Ultimate Web Development Course - Build Modern Website Udemy

TECHNICAL SKILLS

Languages : Python , Java (basics), SQL, JavaScript

Frontend : HTML5, CSS3, JavaScript, React.js, Responsive Web Design

Backend : Core Java, Advanced Java, REST APIs, Flask

Databases : MySQL, MongoDB

Tools : Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Microsoft Office

Core Concepts : DBMS, Operating Systems, OOP, Computer Networks

Web Technologies : DOM Manipulation, JSON, API Integration

SOFT SKILLS

- Problem-solving
- Communication
- Time management
- Teamwork
- Adaptability
